Guy Landers' System IN HONOLULU WAS To Get Rich Quick

Butte, Mont., May 20.—Guy Landers has been arrested here for Honolulu bank forgeries.

Guy Landers has a Honolulu record. He was arrested by Pinkerton's men at the instigation of the First National Bank, with which he deposited a forged draft for \$500. A broker, a post office official and a drug store have reason to remember Landers and there may be others on the list yet to be heard from.

Landers made his first entry to Honolulu sometime last September. He was a man of pleasing address, soon made friends and had an air of prosperity which made many believe his story that he was the son of a rich Louisiana sugar planter and came to the islands to study the sugar industry. To fulfill this part of his story Landers went in search of a position on a plantation and was soon placed as a luna at Ewa plantation. As far as can be learned Landers minded his own business at Ewa. He was at the plantation three or four months.

Landers' shady transactions were apparently confined to Honolulu friends and business houses. He opened a small account at the First National Bank and being vouched for by friends he had made was accepted as good. About the middle of February Landers deposited a New York draft for \$500 with the bank. On February 14, he placed on order with a local broker for forty shares of Ewa. The stock was purchased for him. The broker lost \$30 on the deal. About the same time he borrowed \$50 from a local post office official. During the same period he increased his account with a local drug store for brushes, and luxurious toilet articles.

On February 18, Landers departed in the steamer Alameda. In due course of time the \$500 draft came back from New York with the information that it was not good. The bank officials then began to get busy seeking Landers. He had used about \$300 of his

draft account. The American Bankers Association, of which the First National Bank is a member, was notified and the cable was kept busy. Landers was located at Shreveport, Louisiana, by his drawing on the Honolulu bank for \$100. This draft was of course dishonored and the Shreveport people notified, but Landers had flown.

Next Landers drew on the First National through a Butte, Montana, bank for \$1698. Cashier Cooper immediately notified Pinkerton's Detective Agency and Landers was forthwith arrested.

During the cabling and correspondence that has gone on it has been developed that Landers has records outside of Honolulu. He comes from Monroe, Georgia. His parents are respectable but poor people and have used what money they possessed to keep him out of jail. They finally had to give it up as a bad job. Landers has operated in San Francisco, having let in the Anglo-American bank of that city for a sum not named. He has defrauded other banks for small sums, and has been prosecuted by the post office authorities for stealing stamped envelopes from the department. He escaped jail on a technicality.

When Cashier Cooper was seen this morning he had received no advice from Montana. "I would have followed that fellow to the ends of the earth if necessary," said Mr. Cooper. "I have spent quite a sum of money already." Mr. Cooper could not say what would be done with Landers. If the Territorial officials followed the policy of Mainland officials they would see to it that Landers is extradited and put on trial in Honolulu.

MILLET AND MATTOX

Manager Joe Cohen of the Orpheum, has arranged a fight between Joe Millet, the man who whipped the Britisher at the Chinese theatre some weeks ago, and Mattox, a new arrival in the city. Mattox has been expected to see a fight between Millet and Weday, but not noticing any inclination on the part of the latter to engage in such a bout, he has come forward with an offer to fight Millet himself. Naturally, his proposition was accepted on the spot and the fight is to come off at either the Orpheum or Chinese theatre, two weeks from next Saturday.

Mattox has a great record behind him. Among his numerous fights was one with Tommy West, the noted middle weight. The result was a draw. Several interesting preliminaries will be arranged and the Honolulu lovers of the flat art may expect a great entertainment.

The BUSINESS MAN'S HANDY INDEX, published in the Saturday Bulletin and the Weekly Edition, gives a concise and complete resume of all legal notices, calls for tenders, judgments, building permits and real estate transactions. Evening Bulletin, 75 cents per month. Weekly Bulletin, 51 per year.

SENATE PONDS ON HOUSE EXPENSE

Cecil Brown Asserts the Legislature's Power Over Money.

BALDWIN THE CHAMPION OF HONOLULU WHARVES

BUILDING AT ST. LOUIS EXPOSITION LEFT OPTIONAL—FOR AID TO IMMIGRATION.

SENATE.
Extra Session.

Nineteenth Day.
Senator McCandless presented his report of the special committee on Board of Health items, which was laid on the table to be considered with the bill.

House Expense Bill.
Senator Achi moved, when it came up in order, that the House bill making an appropriation for expenses of the House of Representatives in extra session and unpaid bills of the regular session be deferred until tomorrow. He expressed a fear that if the Senate passed the bill for a less amount than was asked the House might in-

Senator McCandless presented to the Senate this morning the following report on Board of Health appropriations: Your special committee, to which was referred eight items in the six months current appropriations bill under the Board of Health, beg leave to report that they have had the same under careful consideration.

The items "Segregation, Support and Treatment of Lepers, \$24,000"; "Medical treatment of lepers, \$10,000"; and "Kalaupapa store (Provided, however, clothes ration allowance be issued to lepers quarterly at the rate of \$16.00 per year for each person) \$14,000" have been thoroughly investigated by your committee and we believe the same to be segregated in a way that will produce the most benefit for the unfortunate at the settlement.

Your committee therefore recommends that all of the above items pass as in the bill.

With reference to the item "Provisions and ration supplies for settlement, provided the palai ration be 25 pounds, and the beef ration be 25 pounds per weekly ration, \$35,500," your committee would recommend that the palai ration be reduced to 23 pounds per weekly ration, which amount your committee thinks sufficient.

With this amendment your committee recommends that the item pass. Your committee has investigated the item "Queen's Hospital, \$12,500" and finds that the trustees of the institution make annual financial reports to the Board of Health. We believe the sum of \$10,000 to be a sufficient sum for this institution and appropriate for this institution and recommend that the item pass at this amount, and that the trustees of the hospital in future make an annual statement of all receipts and expenditures from all sources to the Board of Health.

BY AUTHORITY NOTICE TO FIRE CLAIMANTS.

By the request of Mr. W. F. McElenan, Special Agent of the Treasury Department, notice is hereby given to those holding fire claims Numbers 1 to 600 inclusive, that upon presenting their certificates of ward to the First National Bank, on or after Saturday, May 23rd, A. D. 1903, their pre rata will be paid.

G. R. CARTER,
Secretary of the Territory,
Secretary's Office, Honolulu, May 21st, 1903. 2462-14

definitely hold up the Senate expense bill.

Senator Woods thought if the Senate passed the House bill for \$20,000, the House would promptly pass the Senate expense bill.

Senator Baldwin considered the bill illegally drawn, because it included in a lump sum unpaid bills of the regular and the expenses of the extra session. This was the opinion of the Attorney General and the Governor, who held the Legislature had no more right to appropriate a lump sum for the session just past than for a session twelve or thirteen years ago. The expenses of any previous session must be itemized.

President Crabbe and Senator Cecil Brown dissented from the opinion of the Attorney General. Senator Brown saying the Auditor had nothing to do with expenses of the Legislature.

Senator Baldwin said probably the Attorney General had something to do with the matter. It was easy enough for the House to put in the itemized bills. He moved consideration be deferred until tomorrow to see if some-

(Continued on Page 8.)

REPORT ON HEALTH APPROPRIATIONS

Your committee recommends the following amendment to the item "Freight and passenger guarantee for passenger steamer, \$1300":

Add the following: between Honolulu (Oahu) and Kaunakakai, Kamalo, Pukoo, Halawa, Wallau, Pelekunu and Kalaupapa (Molokai), Lahaina (Maui), and Kahalalana (Lanai) to be awarded after public bid or tender to the lowest bidder, provided, however, that a passenger steamer is used.

With this amendment your committee recommends that the item pass.

The item "Passenger steamer service between Molokai, Maui and Lanai, by way of Pukoo, to and return, \$1200" your committee finds will be fully covered by the passage of the previous item, as amended by the committee.

We therefore recommend that the item be stricken out and the following be inserted in lieu thereof: "Freight on parcels for lepers at settlement from all islands, \$1,200."

Your committee recommends that the item "Telephone system leper settlement to Pelekunu, Wallau, Halawa, Pukoo, Kamalo, Kaunakakai and Kalaupapa Point, \$5000," pass as in the bill.

This telephone system, we believe, will be of great assistance to the Board of Health in the way of securing supplies, etc., for use at the settlement, and that from outside use of the same a charge can be made which will considerably help in the maintenance of the system.

Your committee therefore recommends that this item pass with the following amendment: add the words "to be stationed on Molokai."

Respectfully submitted,
L. L. McCANDLESS,
H. P. BALDWIN,
D. KALAUOKALANI,
Committee.

SPEAKER BECKLEY GIVES HIS RULING

On Meeting of House On Wednesday Morning.

REFUSES TO RECOGNIZE THE RECORDED MINUTES

INFORMATION IS WANTED ON WHY PUMPING PLANTS SHUT DOWN—PERHAPS A STRIKE.

HOUSE.
Extra Session.

Nineteenth Day.
The House was called to order at 10 a. m. today by Speaker Beckley, after an adjournment of three days. After the regular routine business, the minutes of Saturday were read and approved.

Irregular Session Argument.
Trouble came after the reading of the minutes of the irregular session of yesterday. Mr. Fernandez objected to the appearance of his name among those present at yesterday's gathering. He held it to be a fraud. Mr. Pa-

ble said about the same thing and moved to table the minutes. Aylett moved to reject the minutes and was seconded by Mr. Kuphea. Harris moved to adopt and was seconded by Mr. Chillingworth. Mr. Kumalee wanted to know, on a point of information, under what rules yesterday's meeting was called and Kanoho remarked from his seat: "Kana! rules." Mr. Kanoho said further that he had known of the meeting, he would have been present. He therefore supported the motion to expunge the minutes of yesterday from the journal of the House.

Chillingworth Expresses Doubt.
Mr. Chillingworth said there was quite a doubt, not in his own mind but in the minds of others, who argued that the House should be very careful. There might have been a question with reference to the bond issue had the House not been called to order yesterday.

Mr. Vida said he believed the contention of Mr. Chillingworth, but he failed to see how anyone but the Speaker could call the House to order. The members were in the same pickle as before.

Mr. Kellinot said the House on Saturday last had specified Thursday as the time for coming together again, and no calling of the House to order in the interim was lawful.

Beckley States Position.
Speaker Beckley stated that there was no authority for the session of yesterday. The House had adjourned to a stated time. If the House had adjourned without specifying any time, the Vice Speaker, in the absence of the Speaker, could have called the House to order, but since Saturday's adjournment had been to a stated time, he had no right to call the

RUSSIA THREATENED WITH CIVIL STRIFE

ST. PETERSBURG, Russia, May 21.—Beset with troubles on the Turkish border and in Manchuria, the Russian Government has a more serious problem on its hands in dealing with its own people. The difficulties with foreign Powers have furnished an opportunity for revolutionary societies to carry on their work. A growing spirit of unrest is shown among the working classes. The officials are in daily fear of popular outbreaks against the restrictive rule. Should the Government be unable to quell the disturbances at the outset a widespread revolutionary movement will result.

ROOSEVELT IN PORTLAND.

PORTLAND, Ore., May 21.—President Roosevelt arrived in Portland today. The reception given the Chief Executive was one of the most enthusiastic he has received in the West.

PRESBYTERIAN ASSEMBLY OPENS.

LOS ANGELES, Cal., May 21.—The General Assembly of the Presbyterian Church opened its sessions here today. Many leaders of the church are in the city to take part in the proceedings.

DEATH IN EXPLOSION.

NEW YORK, N. Y., May 21.—A disastrous explosion of a quantity of hydrocarbon barrels occurred in a local warehouse today. One man was killed and many injured. Considerable damage was done to surrounding property.

LIMA WON'T QUARANTINE.

LIMA, Peru, May 21.—The agitation over the plague reports from San Francisco has completely subsided. The proposal to quarantine against San Francisco has not been adopted.

WORCESTER ON LEAVE.

MANILA, P. I., May 21.—Commissioner Dean C. Worcester has been granted a leave of absence from the Philippines. He will probably make a trip to the States.

NEW CHINESE LINE.

SAN FRANCISCO, Cal., May 21.—The Atholl, the first steamer of the new China Commercial line, arrived today.

Luna Chalmers

STABBED

By a Japanese

John Chalmers, head luna on the Waimanalo plantation, a brother to Manager G. C. Chalmers of Waimanalo Sugar Company, was stabbed yesterday by a Japanese plantation laborer, but luckily escaped with a wound which, while it is not very serious, is very painful.

The man who did the stabbing is a Japanese named Otomatsu Funakura. He is about thirty-six years of age and he has been living on the Waimanalo plantation for about six months.

Otomatsu has a reputation of being a drunkard and a loafer. He only worked on an average of about two days in the week and was, even among his own countrymen, considered a thorough bad egg. The other Japanese on the plantation seem to have but very little use for him.

Day before yesterday, Chalmers went to the camp where Otomatsu was and told him that as he was utterly worthless as a laborer, he would have to leave the plantation immediately. He said he would thrash him if he did not obey his orders and leave at once.

Yesterday at about 12:30 in the afternoon Chalmers found Otomatsu in another plantation camp and Chalmers asked him why he had not obeyed his orders and left the plantation. The man preserves a sullen silence. Chalmers is then said to have hit the Japanese, who in his turn and without a word of warning, whipped from his kimono a knife with which he stabbed Chalmers through the arm. He then ran to his room, which is about seventy-five yards away from the spot.

MANDAMUS ISSUED

Judge De Bolt this forenoon issued a writ of mandamus, at the instance of the Attorney General, to Superintendent of Public Works H. E. Cooper, commanding him forthwith to deliver up to the control of the Board of Public Institutions the public works and property given into charge of that body by the County Act.

Chalmers was at first too badly stunned by his wound to follow his assailant. After a little while, he summoned assistance and went to Otomatsu's room but the man had taken advantage of his respite and disappeared. He had fled hurriedly without taking any clothes or other belongings with him.

At the time he made his escape, he was hatless and clad only in a kimono. Last night, the Waimanalo people telephoned to the police station for assistance. On account of the lack of a competent interpreter it was impossible for them to ascertain anything about Otomatsu from his countrymen. Miki, the Japanese officer, and Mounted Patrolman J. Cornwell were accordingly sent over the hill. They left here at about 9 p. m. and arrived at Waimanalo a little before midnight.
